# PLAY FAST GAME.

First Inning and Then Batters Are Mowed Down Rapidly by

LEAGUE PARK, ST. LOUIS, May 12. New York's east-side perp shape and all conditions favored shore resort were never happier than were the big boys who represent New beginning of the season Mr. Johnson York in the National League to-day. One victory has just set them on their that the pace is a bit too swift for him One victory has just set them on their feet again and the late unpleasantness in the windy town of Chicago is well nigh forgotten. One did not have to see the Giants in a game to know that they had been imbued with new life. The practice was the thing that showed the boys were keyed up to the pitch where winning would be the only satisfactory result. They went a merry clip.

The St. Louisans were astonished by their work and the most loyal rooters were not reluctant in predicting victory

Had the pace is a bit too swift for him who has always ranked as one of the fastest players on the turf. Mr. Johnson says he will not come back to racing, but the chances are that when sheepsined and all its glories roll along he will be down taking a fiyer. If his retirement is genuine it will be regretted, for he was most popular among his fellows and has long ranked as a true sportsman in every sense of the word.

First Race—Seven furlongs.—Won by Belvino; Musidora was second and Blanche Herman third.

were not reluctant in predicting victory for the players from the East. Smith and Bean are a pair who by their swiftness have astonished local fans. To get a drive by that infield of the Giants seemed an impossibility, and so in practice worked the whole team. It was really too bad some Polo Grounds

St. Louis crowd was going along under a double pull, as they say on the race track. Such a thing is likely, too, in the local crowd. The close proximity of St. Louis fair grounds race track is very showing full worth in the warming up, as in the cases of the ponies in their

prepared for any emergency and intended winning, for they have been unkind enough to pray that not one victory will fall to the lot of the Donovanites. That

was really too bad some Polo Grounds fans could not be here just to show rooters of this town how they appreciate good ball playing. However, practice is not the game.

Patsy Donovan's boys did fairly well in their warming-up work, but nowhere did it compare with the work of the fellows from New York. But maybe the St. Louis crowd was going along under the control of Blanche Herman. The winner was entered to be sold for \$1.000. Mike Clancy bid him up to \$1.000.

Start good. Won driving. Time-0.31%.

few attractions. As a matter of fact, it was duil save in one or two events. Some of the races were called stakes, but they were only so in name.

The weather was very pleasant, though a clouded sky promised rain in the near future. The track was in superb shape and all conditions favored splendid sport.

David Johnson announced his retirement from the turf to-day. Since the FOURTH RACE.

The largest crowd got in this morn ing, this delegation coming from New York, Baltimore, Pittsburg, Cleveland, Chicago, Eric. Bradford, Pa., and towns n Western Pennsylvania. Those was ormed a great betting crowd. They and plenty of money to wager on Erne's hances and managed to bet so much on the Buffalo lad that by noon, in-stead of Gans being the favorite at 100 to 80, which he has been during the last week, even money was quoted a the different sporting resorts.

As soon as the odds went down to even money the local sporting men. fearing that they might have to effer odds of 100 to 20 to get their money down on Erne, began to bet with every ad-mirer of Gans that wanted to bet. would not be a surprise if he was stalled favorite over Gans at odd to 90 by the time they enter There were also many small bets 100 to 60 that Gans would not stop Er in ten rounds. "Honest John" Keils who arrived with the New York degation of sporting men, announce shortly before 2 o'clock at the Irequoi

TO TAKE SUPPLIES.

Urging That \$500,000 Be Appropriated, But Doubles the Amount Originally Fixed by the Senate.

Disregards President Roosevelt's Message

United States Leads a World-Wide Movement to Hurry Relief to the Homeless and Suftering Thousands.

President Roosevelt this afternoon sent a message to Congress urging that \$500,000 be aprepriated for the relief of the volcano-stricken islands.

The House disregarded the message and passed a bill fixing the amount at \$200,000. This is double the amount named in the bill passed by the Senate last Saturday.

The Senate concurred in the House bill and the measure now goes to the President for his signature.

President Roosevelt's message follows:

To the Senate and House of Representatives: One of the greatest calamities in history has fallen upon our neighboring island of Martinique.

The Consul of the United States at Guadeloupe has telegraphed from Fort de France, under date of yesterday, that the disaster is complete; that the city of St. Pierre has ceased to exist, and that the American Consul and his family have perished.

He is informed that 30,000 people have lost their lives, and that 50,000 are homeless and hungry; that there is urgent need of all kinds of provisions, and that the visit of vessels for the work of supply and rescue is imperatively required.

The Government of France, while expressing their thanks for the marks of sympathy which have reached them from America, inform us that Fort de France and the entire island of Martinique are still threatened.

They therefore request that, for the purpose of rescuing the people who are in such deadly peril and threatened with starvation, the Government of the United States may send, as soon as possible, the means of transporting them from the stricken island.

The island of St. Vincent and perhaps others in that region are also seriously menaced by the calamity which has taken so

For this purpose I recommend that an appropriation of \$500.000 be made, to be improved to be at the propriation of \$500.000 be made, to be improved to be admired and along the propriation of \$500.000 be made, to be improved to be a sum as a sum a
